

## [Important notice] Correction regarding "Application guideline for 'Biomechanical' enrollment in October 2021"

The following correction has been made regarding the Appendix for Admission 2021,  
2. SCHOLARSHIP BENEFITS (3) Transportation Expenses a) Transportation to Japan:

MEXT provides an economy-class airline ticket for the flight from the international airport closest to the grantee's residence (in principle, the country of nationality) to ~~Kansai International Airport~~ the first international airport that the grantee flies into when he/she arrives in Japan.

Up until now, MEXT had mainly provided an airline ticket for a flight from the international airport closest to the grantee's residence to Kansai International Airport. However, due to the spread of COVID-19, the number of flights arriving in Kansai International Airport has decreased while flights arriving at Narita International Airport have increased. As it is difficult to make any predictions about future international flights, we have decided to make the necessary correction as seen above. We ask for your understanding and cooperation.
